

Cloud  
Foundry

```
graph LR; CF[Cloud Foundry] -- "get catalog" --> SB[Service Broker]; CF -- "provision instance" --> SB; CF -- "create binding" --> SB; CF -- "delete binding" --> SB; CF -- "delete instance" --> SB;
```

The diagram illustrates the communication between Cloud Foundry and a Service Broker. Cloud Foundry is represented by a blue rounded rectangle on the left, and the Service Broker is represented by a green rounded rectangle on the right. Five horizontal arrows point from Cloud Foundry to the Service Broker, each labeled with a specific action: 'get catalog', 'provision instance', 'create binding', 'delete binding', and 'delete instance'.

get catalog

provision instance

create binding

delete binding

delete instance
